

# A Premier Network of Fertility Specialists

---

Progyny has created a network of nationally-recognized fertility providers, connecting you to high quality care across the U.S. Our network consists of over 950 fertility specialists, including both reproductive endocrinologists and reproductive urologists, across more than 650 clinic locations.

## Access to High Quality Care

Our Medical Advisory Board continually evaluates the latest science and research to make sure that your benefit allows your doctor to utilize the best clinical practices and latest technologies, ensuring you receive the highest level of care.

## Superior Clinical Outcomes

Every one of our fertility specialists use the latest advancements in science and technology to increase the chances of a healthy and successful pregnancy.

The Progyny benefit design is comprehensive so your doctor is able to work with you to create the customized treatment plan that is best for you based on clinical criteria, not costs. This unique combination enables our network to deliver the best clinical outcomes in the industry, including healthier pregnancies, as compared to national averages.

Find the best provider for you.

You can search for an in-network provider and find our list of in-network labs at: [progyny.com/findaprovider](https://progyny.com/findaprovider)
